Work Experience / Work Exposure

Backend Software Developer Intern

Codebility | Remote set-up

June 2025 - September 2025

- Architected PostgreSQL database schemas for efficient data storage and retrieval.
- Developed a secure authentication and authorization system using JSON Web Tokens (JWT) with supabase.
- Developed RESTful APIs using Javascript and Typescript with ExpressJS and PostgreSQL to support frontend functionalities.
- Implemented and integrated AI-powered API endpoints that process image data to provide diagnostic insights.
- Built a robust error-handling system to ensure data integrity and reliable API responses.

I.T Technician Intern

Leyte Provincial Capitol | Palo Leyte

February 2025 - May 2025 (270 Hours)

- Implemented and configured scalable LAN/WAN computer networks for multiple municipal and school facilities throughout Leyte Province, improving operational stability and access.
- Diagnosed and Resolved complex network and software malfunctions for all end-users, ensuring maximum system uptime and operational continuity.
- Deployed servers that provide services for municipalities such as Electronic Business Processing and Liscencing System and Document Tracking System.

Computer System Servicing Instructor Intern

Future Proof Learning Center Corporation | Tacloban City

July 2025 - July 2025 (80 Hours)

- Assisted instructors in delivering comprehensive lessons on computer hardware, software, networking, and troubleshooting to 25 students
- Answered student inquiries regarding course content, assignments, and practical challenges, fostering a supportive and interactive learning atmosphere
- Implemented basic network setups for lab activities, including IP addressing, cabling, and connectivity testing

Cashier

Great Uptown Steel Corporation | Alangalang Leyte

November 2021 - August 2022

- Prepare daily sales and expense reports.
- Do payroll.
- Answer customer's query.
- Issue official receipts.
- Responsible for handling and managing cash on hand.

Software Development Projects

Smart Traffic Light Management System (Capstone Project) | https://github.com/VILLEGASAL/thesis_laptop

Led the end-to-end development of a thesis-level Smart Traffic Light System capable of dynamic vehicle tracking and emergency alert prioritization. The system's computer vision capabilities were implemented using Python, YOLO, and OpenCV, seamlessly integrated and deployed on a Raspberry Pi 5 architecture.

Thunder Vault | <https://thunder-vault.onrender.com/>

A secure file server application built with FastAPI. I designed and implemented the minimum viable product (MVP), establishing robust authentication and authorization systems alongside an intuitive user interface.

Password Manager | <https://yale-v2rk.onrender.com/>

An app where users save passwords for different services and generate strong, secure passwords when needed.

Technical Skills

Programming Languages: Python, Javascript, Typescript, PHP, C/C++

Frameworks: FastAPI, React JS, Codeigniter

Databases: PostgreSQL, MySQL, Monggo DB, Redis

Cyber Security: Wireshark, Linux, Nmap

Certifications and Trainings

CISCO Ethical Hacker

CISCO | Issued: April 2026

Cyber Threat Monitoring

TESDA | Issued: March 2026

API Security Fundamentals

APISEC University | Issued: November 2025

Computer Systems Servicing NC II

TESDA | Issued: August 2025

Creative Web Design

TESDA | Issued: August 2025

Web Development Bootcamp

UDEMY | Issued: February 2023

Education

College | Asian Development Foundation College

Tacloban City

Bachelor of Science in Computer Engineering

September 2020 - May 2026

Senior High School | Leyte Colleges

Tacloban City

General Academic Strand

July 2018 - April 2020 - Present

Junior High School | Holy Trinity College

Alangalang, Leyte

June 2014 - March 2018

Elementary | Holy Trinity College

Alangalang, Leyte

June 2010 - March 2014
